

## Introducing Google Maps

## Traveling from home to your school

**Module:** Parent resources – New school environments

**Resource:** Navigating the new school environments – The journey to school

This is a joint task with parent and/or carer and young person.  
Open Google Maps together.

1. Go to the Directions function. Enter your home address as the location, and your secondary school as the destination.
2. Select 'car' as the transport option. What is the duration and distance if you go by car? Enter this data in the table below.
3. Select 'walking' as the transport option. What is the duration and distance if you walk? Enter this data in the table.
4. Select other transport options available to you for this trip.

Mode of transport	Duration (minutes)	Distance (km)
Car		
Walking
